Bill:

See referenced DD/I Notices and attached typical report for format of trip reports. Would suggest, in the light of our conversations, that you rephrase para. IIIa, placing less emphasis upon the "spotty," "no need," and "only comment" phrases that you have included in the paragraph. Perhaps paragraphs IIIb and IIIc will provide the basic answer for the cable [REDACTED] is pre-paring. Since Amory is leaving Saturday, it might be well to have this before him so that, if he has occasion to stop off in [REDACTED] he will be vocal on the subject.
